FOR EVERYONE**

BENEFITS OF THE SMART SIZE SYSTEM FOR EVERYONE

**FOR THE PET OWNER
AND THE ANIMAL**

- More comfort and well-being for the pet
- Safe, anatomical fit
- Easier to choose
- More peace of mind

**FOR THE
VETERINARIAN**

- More precise, safer recommendations
- Confidence in product selection
- Contributes to surgical and treatment success
- Better outcomes for the patient

**FOR THE BUSINESS
OWNER AND
PET SHOP**

- Optimized, efficient inventory
- Fewer SKUs, faster turnover
- Reduced operating costs
- More efficient portfolio
- Better use of space

**FOR
DISTRIBUTORS**

- Optimized, efficient inventory
- Fewer SKUs, faster turnover
- Reduced operating costs
- More efficient portfolio
- Simplified logistics, less complexity

**CUTTING-EDGE
TECHNOLOGY**

**IN-HOUSE
RESEARCH &
DEVELOPMENT**

**WORLD REFERENCE

AND QUALITY**

**RESULTS-DRIVEN
INNOVATION**

**COMMITMENT
TO ANIMAL
WELFARE**

**INNOVATION, INTELLIGENCE
AND GLOBAL POSITIONING**

Pet Med is a global reference in protective and post-surgical wear for pets. Our track record is built on experience, driven by research, and connected to market needs.

COMFORT PRO

NEW GENERATION SMART SIZE SYSTEM

HOW DID WE ACHIEVE THIS RESULT ?

The Comfort Pro line was developed based on advanced modeling studies and the physical properties of High Tech fabric, resulting in greater performance, comfort, and efficiency in every detail.

FABRIC PERFORMANCE – HIGH TECH COMFORT PRO

High Tech Comfort Pro fabric delivers superior performance in elasticity, absorption, and durability, proving its excellence.

**DURABILITY OVER
THE PRODUCT'S
LIFESPAN**

**STABILITY AND
RESILIENCE**

**ANATOMICAL
VERSATILITY**

**COMFORT FOR
THE PET AND FOR
CAREGIVERS**

RESISTANCE TO THREAD PULLING

The fabric's ability to withstand mechanical stress without tearing or thread displacement.

- Preserves the garment's integrity across different stretch levels
- Increases the reliability of the smart size range

ELASTICITY AND USEFUL STRETCH

The fabric's ability to stretch and return to its original shape without permanent deformation.

- Better fit across larger sizes
- Wider weight range per size
- Fewer SKUs needed

PRESSURE RESISTANCE

The fabric's ability to distribute tension while maintaining the garment's fit.

- Keeps the fit even with a wider range of measurements
- Prevents localized deformation

HYDROPHILICITY AND DRYING

Fabric that absorbs and disperses moisture quickly, providing freshness and comfort.

- More well-being and thermal comfort for the pet

ADVANCED TEXTILE TECHNOLOGY

Developed to offer more protection, comfort, and performance at every stage of the pet's recovery and treatment.

DRY TECH TECHNOLOGY

- Fast-drying technology
- Inhibits the growth of harmful microorganisms
- Reduces skin maceration and irritation
- Contributes to a dry, clean environment
- Can be washed and reused within a few hours

ANTIMICROBIAL TECHNOLOGY

- Free of chemicals and heavy metals
- Inhibits the growth of odor-causing microorganisms
- Provides more comfort
- Increases safety for the pet

UV 50+ PROTECTION

- Built directly into the fabric
- Reduces the harmful effects of UV rays
- Provides added protection during treatment
- Promotes greater comfort and safety for the pet

THE ADVANTAGE OF CONFORT PRO SMART GARMENTS

Why choose Pet Med? Because **advanced technology** replaces cotton and other fabrics.

Discover how it delivers superior performance, enhanced hygiene, and greater comfort at every stage of recovery.

Advanced Antimicrobial Protection

- Antimicrobial protection through a physical process, with organic origin
- Free from chemicals and heavy metals
- Helps control odor and maintain hygiene
- Supports a cleaner environment during recovery

Second-Skin Comfort and Flexibility

- Soft, elastic structure that adapts to the animal's body
- Supports natural movement without restriction
- Helps reduce stress and improve overall comfort

Durability for Repeated Use

- High resistance to frequent washing
- Maintains shape, performance and functionality over time
- Designed for both clinical and home use

Built-in UV 50+ Protection

- Blocks up to 98% of UVA and UVB radiation
- Integrated sun protection within the fabric structure
- Contributes skin protection during recovery

Compare to Cotton and other Fabrics

While cotton garments are commonly used in the market, they may present limitations in clinical performance:

Moisture Retention

- Slower drying and prolonged moisture retention
- Creates a humid environment that may compromise skin integrity and comfort

Limited Hygiene Control

- Does not provide antimicrobial support
- May contribute to odor development over time

Restricted Movement

- Lower elasticity may restrict movement
- May create pressure points and discomfort

Lower Durability

- May lose shape and performance with frequent washing
- Shorter product lifespan

Limited UV Protection

- Does not provide effective sun protection
- May not be suitable for sensitive or recovering skin

PROTECTIVE AND RECOVERY SUIT REGULAR FOR DOGS

COMFORT PRO GARMENTS

For Female and Male Dogs

- Recommended for abdominal surgical procedures, providing effective coverage without compromising mobility
- Exclusive anatomical design adapted to female and male dogs
- Allows physiological needs without removing the suit
- Maintains comfort and hygiene while supporting daily use during recovery
- Smart sizing system based on pet weight, simplifying size selection
- Made with high-performance, breathable and lightweight fabric
- Suitable for clinical and home use, as directed by a veterinarian

Optional opening for male dogs

Size	Approximate Weight	
	(KG)	(Lb)
1	1 - 1,9	2.2 - 4.2
2	1,9 - 3,5	4.2 - 7.7
3	3,5 - 4,5	7.7 - 9.9
4	4,5 - 7	9.9 - 15.4
5	7 - 10	15.4 - 22.0
6	10 - 13	22.0 - 28.7
7	13 - 18	28.7 - 39.7
8	18 - 26	39.7 - 57.3
9	26 - 38	57.3 - 83.8
10	38 - 52	83.8 - 114.6

COLORS

Recommendations:

- Abdominal surgeries in female and male dogs, sterilization of females, mastectomies, cases of stress, anxiety and other treatments, according to veterinary direction.

Attention: This protective garment model is not recommended for neutering/castration procedures in male dogs. For those cases, we recommend using the Protective Garment for Male Dog Neutering/Castration.

Pet Med

PROTECTIVE AND RECOVERY SUIT FOR MALE DOGS

COMFORT PRO

GARMENTS

For Male Dogs

- Developed for neutering procedures and other abdominal surgeries, providing effective coverage without compromising mobility
- Exclusive anatomical design for male dogs
- Strategically positioned opening for male dogs, allowing physiological needs without removing the suit
- Maintains comfort and hygiene while supporting daily use during recovery
- Smart sizing system based on pet weight, simplifying size selection
- Made with high-performance, breathable and lightweight fabric
- Suitable for clinical and home use, as directed by a veterinarian

Size	Approximate Weight	
	(KG)	(Lb)
1	1 - 1,9	2.2 - 4.2
2	1,9 - 3,5	4.2 - 7.7
3	3,5 - 4,5	7.7 - 9.9
4	4,5 - 7	9.9 - 15.4
5	7 - 10	15.4 - 22.0
6	10 - 13	22.0 - 28.7

Pet Med

PROTECTIVE AND RECOVERY SUIT REGULAR FOR CATS

COMFORT PRO
GARMENTS

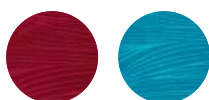

For Cats

- Specifically developed for cats, the protective suit respects feline anatomy and sensitivity, providing greater comfort during the recovery period
- Allows physiological needs without removing the suit
- Maintains comfort and hygiene while supporting daily use during recovery
- Smart sizing system based on pet weight, simplifying size selection
- Made with high-performance, breathable and lightweight fabric
- Suitable for clinical and home use, as directed by a veterinarian

Size	Approximate Weight	
	(KG)	(Lb)
00	1,3 - 1,7	2.8 - 3.7
0	1,7 - 2,3	3.7 - 5
1	2,3 - 3	5 - 6.6
2	3 - 3,8	6.6 - 8.3
3	3,8 - 5	8.3 - 11
4	5 - 7	11 - 15.4
5	7 - 9	15.4 - 19.8

COLORS

Recommendation:

- Abdominal female and males cats surgeries, female sterilization, mastectomies, cases of stress, anxiety and other treatments, according to veterinary direction.

Attention: This model of protective suit is not suitable for male cat castration. For these cases, we recommend the use of the Soft Ultralight Collar for cats.

Pet Med

HIND LIMBS PROTECTOR

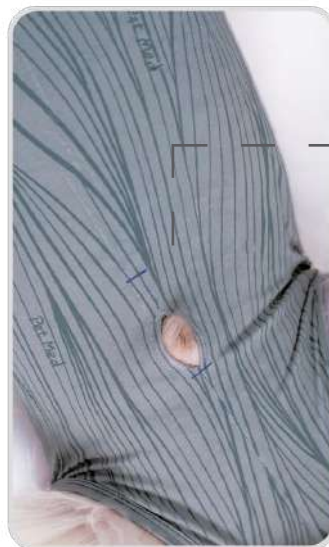

COMFORT PRO GARMENTS

- Exclusive anatomical design adapted to the hind limbs, providing effective coverage without compromising mobility
- Allows physiological needs without removing the suit
- Maintains comfort and hygiene while supporting daily use during recovery
- Smart sizing system based on pet weight, simplifying size selection
- Made with high-performance, breathable and lightweight fabric
- Suitable for clinical and home use, as directed by a veterinarian

Size	Approximate Weight	
	(KG)	(Lb)
1	1 - 1,9	2.2 - 4.2
2	1,9 - 3,5	4.2 - 7.7

4	42 - 50	16.5 - 19.7
5	50 - 56	19.7 - 22.0
6	56 - 65	22.0 - 25.6
7	65 - 76	25.6 - 29.9

COLORS

Recommendations:

- Recommended for female dogs during heat cycles, urinary incontinence, or other veterinary situations involving small-volume fluid absorption (up to 5 ml). Use according to veterinary direction.

Pet Med

Absorbent Protector for Males

The Absorbent Protector for male dogs is an innovative solution designed to provide practicality, hygiene and comfort, featuring a triple-layer absorbent system with Undertech Eco technology.

- ✓ Retain fluid
- ✓ Odorant
- ✓ Breathability
- ✓ Sustainability
- ✓ Washable

SIZE	SUGGESTION OF WAIST CIRCUMFERENCE	
	(CM)	(INCHES)
0	24 - 28	9.4 - 11.0
1	28 - 32	11.0 - 12.6
2	32 - 36	12.6 - 14.2
3	36 - 42	14.2 - 16.5
4	42 - 50	16.5 - 19.7
5	50 - 56	19.7 - 22.0
6	56 - 65	22.0 - 25.6
7	65 - 76	25.6 - 29.9

Recommendations:

- Recommended for male dogs with urinary incontinence or other veterinary treatments involving small-volume urinary absorption (up to 5 ml). Use according to veterinary direction.

COMFORT COLLAR

- Designed to provide protection, safety, and comfort during the recovery period.
- Recommended for dogs and cats undergoing post-surgical procedures, dermatological treatments, and other situations where it's necessary to prevent the animal from licking or biting sensitive areas.
- Its comfortable design helps reduce stress during use, without compromising protection.
- Made with lightweight, durable materials, providing comfort during daily use.
- Suitable for clinical and home use, as directed by a veterinarian.

Foldable with both hands

The collar should extend beyond the animal's snout.

SIZE	NECK CIRCUMFERENCE (IN)	LENGTH (COLLAR TO SNOOT) (IN)
0	6.3 - 8.3	3.5
1	8.3 - 10.6	4.3
2	9.4 - 11.8	5.1
3	10.6 - 13.0	5.9
4	11.8 - 15.0	7.1
5	13.8 - 17.3	8.3
6	15.0 - 17.7	9.8
7	16.5 - 20.5	11.0
8	18.5 - 22.8	12.6

COLOR 

Note: The neck collar/leash is not included.

Recommendations:

- Recommended for dogs and cats, as directed by a veterinarian.

Pet Med

CERVICAL COLLAR

- Designed to provide support and immobilization of the cervical region, maintaining comfort during the recovery period.
- Its anatomical design helps safely and comfortably limit neck movement.
- Made from comfortable, durable fabric, providing greater well-being during use.
- Suitable for clinical and home use, strictly as directed by a veterinarian.

SIZE	NECK HEIGHT (IN)	NECK CIRCUMFERENCE (IN)
0	1.6	7.9
1	2.2	10.6
2	2.8	12.6
3	3.3	14.6
4	3.9	15.0
5	4.5	18.1
6	5.3	19.7
7	5.9	23.6
8	6.7	24.4

Attention:

- The use of the Cervical Collar requires evaluation and guidance from a veterinarian. It should not be used as an Elizabethan collar, as it was specifically designed to provide support and immobilization of the cervical region.

COMFORT MUZZLE FOR RESTRAINT

- Designed to provide safe restraint during consultations, exams, and short-duration veterinary procedures.
- Its flexible, anatomical design fits the snout and limits the animal's mouth opening during restraint.
- Made from soft, lightweight, breathable fabric.
- Available in different sizes to fit dogs of varying sizes and anatomical characteristics.
- Intended exclusively for temporary restraint during veterinary care, under the supervision of a professional.

Size Suggested breeds as a size reference:

1	Poodle, Brazilian Terrier
2	Dachshund, Poodle, Schnauzer
3	Beagle, Schnauzer
4	Cocker Spaniel, Scottish Terrier
5	German Shepherd, Pit Bull
6	Labrador, German Shepherd, Pit Bull
7	Rottweiler

6	12.2	8.3	3.7
7	13.8	8.7	4.1
8	15.7	10.2	4.3

COLORS

Attention:

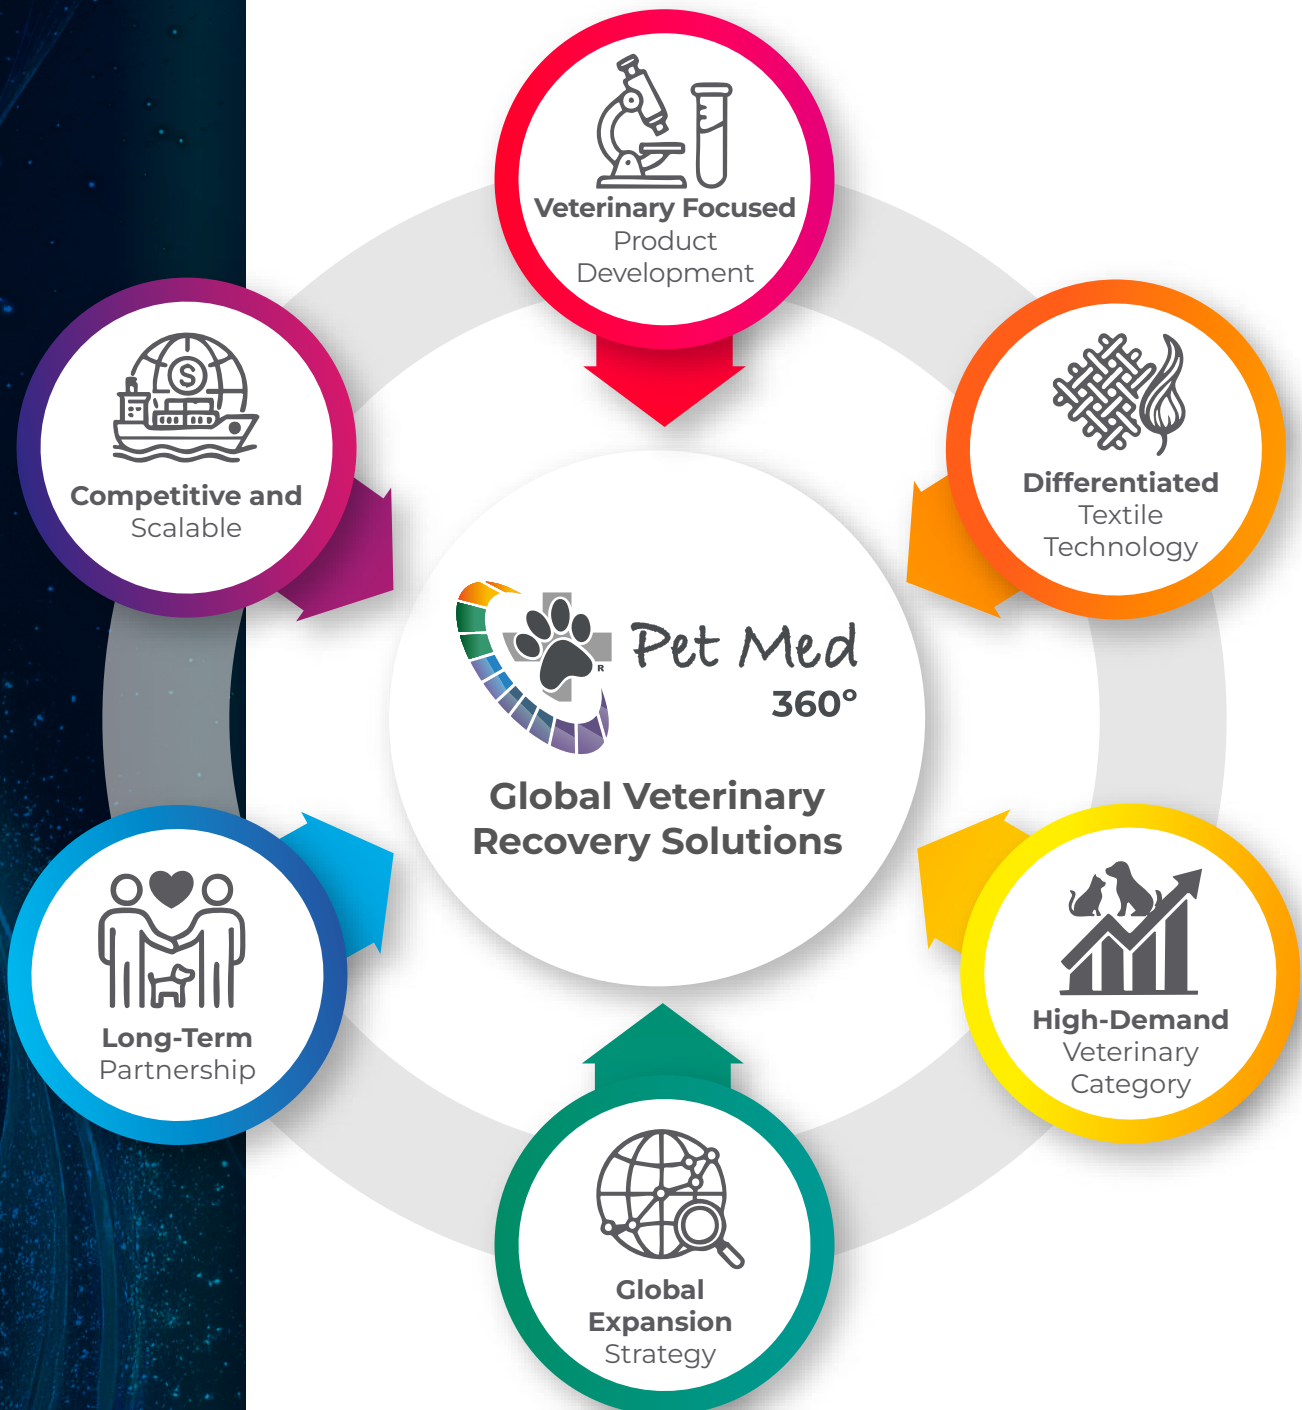

- This product **does not allow the animal to open its mouth properly to pant**. For this reason, it should be used exclusively for short periods of restraint during veterinary care. **It should not be used for walks, physical activity, or extended periods of time**, as panting is an essential mechanism for regulating a dog's body temperature. Always use under supervision.

Pet Med

Pet Med as a Strategic Partner

Why Pet Med is the ideal partner for sustainable growth and market differentiation

Become a distributor!

Easy-to-Start Business Model

No special licensing requirements

Optimized initial investment

No minimum order quantity (MOQ)
